EDUCATIONAL BACKGROUND

Presidency University
Bangalore, India
B.Tech in Computer Science and Technology
CGPA: 7.2 | Expected on June 2027

Presidency PU College
Bangalore, India
2nd PUC (PCMC)
Percentage: 80% | Graduated on Apr 2023

Florence Public School
Bangalore, India
10th ICSE Board
Percentage: 86% | Graduated on Apr 2021

SKILLS AND PROFICIENCIES

Programming Languages: Python, Java, JavaScript, SQL
Web Technologies: HTML, CSS, JavaScript, PHP
Databases & Backend: SQL, Supabase
Tools & Platforms: VS Code, Google Colab, Supabase
Core Concepts: Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems, Software Engineering, Machine Learning

CERTIFICATIONS

AI Engineering Certification
Python Programming Certification
DevOps Certification
Blockchain Fundamentals
Open Source Software (OSS)

PROFESSIONAL SUMMARY

Computer Science student with strong problem-solving skills and Python expertise, experienced in AI/ML and full-stack development. Passionate about building scalable software solutions and applying machine learning to real-world problems. Seeking opportunities to contribute to innovative engineering teams.

WORK EXPERIENCE & PROJECTS

IoT Analytics Platform

– Built an end-to-end IoT data analytics platform for real-time monitoring and visualization of sensor data using Python and full-stack web technologies.

Hotel Booking Website

– Developed a full-stack hotel booking web application with user authentication, room management, and booking features using JavaScript, PHP, and Supabase.

Environmental Monitoring System

– Designed a system to collect, process, and display environmental sensor data. Integrated hardware and software components for real-time reporting.

Arduino Calculator

– Built a functional calculator using Arduino hardware and embedded C programming, demonstrating hardware-software integration skills.
